SEARCH NOTES (INCLUDING SEARCH STRATEGY)		
STN West (see attached file)	Date	Exmr.
Search SEQ 2DNOS: 3-5 for identical, homologous, interference searches. Written description rejection was made after consulting with SPE (1631) Mike Woodward. SPE (1634) Gary Ben Zion specifically indicated that there was no written description issue on claims 1, 12, 14, 16, and 17. Note that claim 7 is not allowable even through applicant deletes SEQ 2DNOS: 2, 4, and 7 because, basing on the phrase "the amino acid sequences given by SEQ 2DNOS.", SEQ 2DNOS: 4 will read the claim.	5/30/2003	u
